

Yes! We do that.

Teksita delivers online, media-centric communication and promotion systems, services, strategies and solutions for small and mid-size businesses and organizations.

At **Teksita**, we believe – **Communication has a new face... Yours!**SM

Businesses that implement a sound online communication and promotion strategy attract and engage people more effectively, and improve their profit potential. Have you thought of communicating with your audience using Live Internet Broadcasts, or promoting your products and services using Campaign Video Email?

comF5: a communication refresh

The comF5 internet marketing system, aka the Tools of Attraction, is a powerful Web 2.0 communication and promotion system comprised of MailF5 (Audio/Video Email), TemplateF5 (Template Design), MarketingF5 (Campaign Management), LiveF5 (Live Video Broadcast), MediaF5 (Media Management), and MobiF5 (SMS/text message marketing), along with comprehensive Metrics and Reporting Tools.

TRAINING

Save money and time upfront by learning the **comF5** system and some best practices. **Teksita** provides workshops for consumers, businesses, and distribution channel partners.

TEMPLATE DESIGN

Build your own or focus on your core business while **Teksita** builds dynamic and reusable templates for you. **Teksita's** design services produce email templates, campaign email templates, and web templates – complete with HTML, graphics, and audio and video content to your specifications.

CAMPAIGN MANAGEMENT

Expand your exposure - extend your market - enhance your brand. **Teksita** can manage your email campaigns, attract your targeted audience, engage them with opt-in benefits, and measure the success of your results.

LIVE BROADCASTING

Teksita can video broadcast your event, information, show, news, training, public communication, ceremony, entertainment, and more LIVE over the Internet. On-location and in-studio. Public, private and pay-per-view.

PRODUCTION SERVICES

Teksita can script, shoot, and edit video for on and off-line requirements, and create graphics and websites.

INTERNET BROADCAST STUDIOS

Teksita can implement Internet broadcast studios for your on-location and remote broadcasting requirements. Customized packages consist of cameras, audio mixers, video switchers, cabling, lighting, training and more.

INTERNET MARKETING PACKAGES

Teksita can customize packages from any of our products and services, and personalized proposals can be prepared to meet a variety of requirements and circumstances.

DISTRIBUTION CHANNEL PARTNERS

Position yourself or your business in front of the massive, online video communication, media, and promotion trends. Contact us to learn more about distribution channel partner, employment, or contractor opportunities.
